If the weather does not moderate, but remains cool and crisp, a party composed of Allie Riera, Ed. Peake, Earl Williams and possibly one or two others contemplate going floundering tonight, and believe they will make good catches. They say that this is ideal weather for the sport, and would have gone last night but for the fact that there was a slight moderation in the temperature early in the evening.

J. T. Hurst, who has been with the Standard Clothing Co. in the capacity of salesman, has tendered his resignation, effective Sept. 1, when he will be with the Rhodes-Pitch-Collins Furniture Co.

The wood block paving company has a large force of workmen engaged in grading Palafox street, between Garfield and Gregory, and the cement foundation has been placed at one point for the wood block paving.

The work is to be pushed forward as rapidly as possible on this thoroughfare so as not to interrupt traffic any longer than is absolutely necessary.

H. H. Whiting, of Berkeley, California, who is in the city spending the holiday season with his mother, is being warmly greeted by his Pensacola friends. While Mr. Whiting is a resident of California, Florida still retains his interest and affection. Speaking to a Journal representative yesterday, Mr. Whiting paid The Journal a compliment by describing it as the best paper he had ever seen published in any city of Pensacola's size anywhere.

Beginning January 1, through service will be resumed on West Hill line, between the hours of five and eight p. m. After eight p. m. West Hill cars will operate between the Park and DeVilliers street, except on Saturday nights, when cars will continue to run through town until 10 p. m. On Sunday cars will begin running through town at 12 noon and will continue until 8 p. m.

An error occurred yesterday morning in the list of winners at the field day meet at Barrancas, the Seventy-Seventh company being credited with a victory in the tug-of-war, when the 163rd company boys carried off the honors.

Today is review, parade and muster at Fort Barrancas. It is the monthly review and will commence at 8:30 o'clock this morning.

IN OFFICES AT CITY HALL

MAYOR REILLY PUTS IN SPARE TIME IN SIGNING IMPROVEMENT BONDS—WATER DEPARTMENT VERY BUSY ALL DAY.

What will in all probability be the very best football game of the season, and one to close the season in Pensacola, will be played Saturday at Palmetto Beach between the Athletics and the strong team from the Pensacola High School, of the 1906 term, and styling themselves the Pensacolas. To make the best possible show, and to make the best reach for the honors, both teams have been working hard at practice, and will be in good shape for the game. Those who are interested in this lively sport should avail themselves of the opportunity to see these two evenly-matched teams go up against one another New Year's day.

School days of many of the players have been closed for some time, but some of those who will be seen are attending colleges in different sections of the United States and are home for the holidays. The play of the Pensacolas will be directed by A. L. White, and the play of the Athletics will be under the direction of Quinton Borrass and R. Boyett. Game will be called upon the arrival of the 2:45 car from the city. Charges will be 25 cents for ladies, and 50 cents for gentlemen. Receipts will be applied to a fund for the building of a track at Palmetto Beach, so that in the future all track meets may be held there and be conducted in the open.

This game has been talked about for the past several weeks, and its play will be looked forward to with interest. Capt. White, of the Pensacolas, has been doing some boosting, and will have a crowd of boosters on hand. The same interest has been taken by the captain of the other team.

Colors for the Pensacolas will be red and white. Colors for the contesting team will be maroon and white.

Fred. J. Blount will referee the game, and Volney Phillips will umpire. Both teams will line up as follows:

Pensacolas—L. Shuttleworth, right end; Pace, right tackle; Overman, right guard; A. Wilkerson, center; A. L. White, captain and manager, quarterback; A. Henry, left guard; C. Yates, left tackle; B. Coleman, left end; F. Palmes, right halfback; L. Childerson, left halfback; L. W. Bell, fullback.

Athletics—R. Boyett, right end; L. White, right tackle; Salter, right guard; M. Gilmore, center; Van Pelt, left guard; Olsen, left tackle; R. Gilmore, left end; A. Boyett, fullback; Reager, left half; Wallace, right half.

Mayor Reilly stated yesterday that he would call the council in session just as soon as he was advised that Mr. Hatton, the consulting engineer, was in the city. The mayor said that if Mr. Hatton should reach the city in the afternoon, notices for a council meeting for the following evening would be issued and sent out. At that meeting, the mayor said, the matter of the DeVilliers street outlet, the condition of the sewer and the matter of the treasurer appointment would all be handled. He said that there would be no meeting of the council on Saturday, even should the engineer be here on that date.

The city hall will not be closed all day New Year's day, which is on Saturday. Some of the officials will take the day off to visit their friends and offer them happiness, etc., but the building itself will be open practically the whole day.

Clerk L. Borrass in the office of the street superintendent, is getting his data assembled for the monthly report of the head of the street department, to be presented at the meeting of the board of works early in the week. The report is expected to show a much lessened lot of work, because of the retrenchment which has been forced upon the board of works.

Annual reports from all the officials are now in order at the city hall, and some of these reports may be rendered about the middle of January. The files of the several departments have been furnished by the respective heads.

SUPPLIES FOR S. AM. RAILWAY

NORWEGIAN BARK VAAR CARRIED TIMBER AND LUMBER AND BRITISH STEAMSHIP CATH. ERINO BIG CARGO OF STEEL RAILS.

Pensacola is handling about all the products for that South American railway in Patagonia and which is being built by Americans.

The Norwegian bark Vaar sailed for Colastine, a port in Argentina, yesterday with half a million superficial feet of lumber to be used in the buildings for the railroad line, and the British steamship Catharino, loaded with about 14,000 steel rails, was preparing to go to sea yesterday, having shifted from her loading berth at Tarragona wharf over to Muscogee wharf to take on bunker coal. The vessel will get away today for Colastine also.

The first steamer to load a large cargo of rails, the Drumlanrig, also carried from this port a large amount of wheels, bolts, etc., to be used on the big undertaking.

SATURDAY ON THE GRIDIRON WITH LOCALS

PENSACOLAS AND ATHLETICS WILL CONTEST FOR DISPUTED HONORS AND GAME WILL BE VERY BEST OF THE PRESENT SEASON.

What will in all probability be the very best football game of the season, and one to close the season in Pensacola, will be played Saturday at Palmetto Beach between the Athletics and the strong team from the Pensacola High School, of the 1906 term, and styling themselves the Pensacolas. LIFTING LOGS FROM THE BAY

STEAM CRANE USED FOR UNLOADING NAVAL STORES HAS BUSY DAY IN TAKING MAHOGANY FROM WATER FROM THE CHISWICK.

Logs from the British steamship Chiswick, dumped overboard because no berth was available at the docks where deep water obtained, were being handled in a new shape yesterday. The rafted logs from the steamship were worked up into the slip between Commandancia and Central wharves and the steam crane was started to working. The logs are grappled by hooks and lifted without a great deal of trouble to waiting cars on parallel tracks, and as fast as placed thereon are shipped up and made ready for the railroad trip to Louisville. This is the first time that the oldest stevedore remembers that imported logs have been forced to this method of handling.

The Chiswick discharged practically the whole of the deckload up to last night and this morning the logs in the batches will be taken therefrom and pitched into the water. The same procedure of rafting them and making them into compact form for rapid handling by the steam crane and crew will be followed today. The ship Blanche, which occupies the wharf side of the berth, is about ready to move into the stream. Another berth on the opposite side of Tarragona wharf is open, at present, but a steamer is expected daily to fill the same.

COUNTY COMMISSIONERS WILL MEET TUESDAY

The board of county commissioners were yesterday notified of the meeting for the transaction of any business which may be on the calendar for Tuesday night. The matter of the jail construction will not be touched upon until possibly the first week in February, as that will be the time as large as the public notice given to take up any and all bids which may be in hand.

THE CHICOPAA IS A FINE BOAT, SAYS CAPTAIN

VESEL RECENTLY BUILT AT MILTON FOR WARREN & CO. RETURNS FROM HER FIRST VOYAGE, AND THE MASTER IS ENTHUSIASTIC.

"The best boat I ever put foot on! The finest of Pensacola's fishing fleet! She's as dry as a snap, and you can't put her bowsprit under water."

These and a few more were the enthusiastic exclamations of Capt. Joe Caminiti, master of the Chicopaa, Warren & Co.'s new fishing schooner, which returned from her first trip to the fishing banks yesterday, bringing in a catch of 15,000 pounds. The vessel is a brand new one, having been launched at Milton, where she was built, some time ago, and brought to the city, where she was fitted out.

Captain Caminiti says the Chicopaa is a fine sail boat, having a speed of about thirteen knots an hour, and although she experienced heavy weather for eighteen days the vessel stood up fine under it.

The vessel will sail out today for Campeche for another cargo of fish.

THIEF STEALS MANY TURKEYS

MIDNIGHT FOWL GATHERER HAS BEEN VERY SUCCESSFUL AND HAS ELUDED ALL EFFORTS OF OFFICERS TO CATCH UP WITH HIM.

Since Christmas night some thief, or a gang of thieves, perhaps, have been making successful and well-paid raids upon fowl roosts and coops all over the city, and a number of turkeys have been stolen. The thieves have thus far eluded arrest, although the officers have had several reports from their operations in different parts of the city. The police department has been going on the theory that the thief or thieves would try and dispose of the stolen Christmas birds, but as far as no attempt has been made, or at least the officers have not heard of any such attempt.

The butcher shops have been watched very closely by the mounted officers but no one with any turkeys of any large numbers, or who tried to sell chickens, have been in the vicinity of the shops. A number of chickens have also been stolen along with the turkeys.

If plans of the projectors are carried out successfully, the warehouse on Palafox wharf now used by the Gulf Steamship company will be considerably enlarged, to make it a building fully two hundred feet in length and possibly two stories in height. This was the rumor along the water front yesterday, but it would not be confirmed and it would not be denied by parties interested. One gentleman said that he thought the building would be erected, but that the details would not be made public for the present. Another gentleman, when asked about it, said that he knew that plans were afoot for enlarging the building, or entirely supplanting the present structure with a more substantial one, but that he would not go into details, as he thought the information should be given out from another source. It was understood, however, that the lessees of the wharf stood ready to build, but the steamship company had not yet signified a willingness to request a larger building right at this time.

At present the building used is not satisfactory, it is stated, from the fact that room is at a premium many times. Then freight which is landed here is forced on the wharf, and has to be moved by consignees hurriedly. This arrangement is unsatisfactory, and it is for the improvement of this freight discharge, and also for protecting the consignments that the larger building is desirable.

From one source the rumor was heard that the company intended shortly to establish a double service, by employing another steamer, not as large as the Manteo. This could not be confirmed by people who would know. In fact, they asserted nothing of this nature was contemplated.

DeFUNIACK.
Special to the Journal.
DeFunia Springs, Dec. 30.—Gordon Henry and Malcolm Morrison are among those home for the holiday season.

Mrs. Sue Gillis is visiting friends in Pensacola.

The Ladies' Missionary society and the Young Peoples' Christian Endeavor of the First Presbyterian church have, within the last six months, organized a Sunday school at Indian creek, some four miles east of here. The work is appreciated and there is a good attendance. Last Monday they were given a Christmas tree and presents, and a happy crowd went to carry these and give the members of the Sunday school a good time. Those attending were Mrs. Edge, the Misses Mary McKinnon, Mary G. Campbell, Christian McDonald, Mr. Geo. F. Carden and a class of little girls, who gave a very pretty exercise. Santa Claus was there and added much to the enjoyment by his jollity and genial handshake.

Mrs. J. C. Walden, Jr., has returned home, after an extended absence.

The Sunday schools of the various churches all had splendid exercises and Christmas trees on Friday evening.

Rev. Dr. Edmunds preached a thrilling and impressive farwell sermon in the Baptist church Sunday evening. This was a union service, so that all who wished might go and hear these parting words from the man so many have learned to love and respect.

Mr. and Mrs. Robert Oliver and daughter and Mr. and Mrs. Quartermaster McCaskell and son were here for the holidays.

Mr. and Mrs. C. O. Andrews spent Christmas at Tallahassee with relatives.
